

**PREPARATION SHEET FOR ROACHES**  
**SPRAY TREATMENT**

**Strategic Pest Control** will be coming to fumigate your unit. Please be ready by 8am. Technicians will arrive anywhere between 8am – 2pm. You must be ready to leave the unit once they get there and must remain out of your apartment for at least four hours.

**BEFORE THE TREATMENT**

1. **REMOVE EVERYTHING** from all kitchen and bathroom cabinets, drawers, and counters. Do not forget the medicine cabinet, toothbrushes, can openers, toasters, etc.
2. If you prefer, items may be left in the drawers and the drawers removed entirely from the cabinets with contents intact. Dresser drawers should be removed and placed on the bed.
3. Place all kitchen items on a table or floor, **OUT OF THE KITCHEN** and cover with a sheet. Any washing of cabinets should be done **BEFORE SPRAYING! ONLY THE COUNTER TOPS, STOVE TOPS, AND BREAD BOARDS CAN BE WASHED AFTER SPRAYING.**
4. Remove all loose paper. Adhesive shelf paper may be left in place.
5. Remove all items from linen closets, hall closets, etc. and place in center of room.
6. Remove all items from bedroom closet floors and shelves. Clothing on hangers may be left in place if you simply pull it to the center of the rack and cover in a sheet of plastic. We recommend simply lifting the clothing of the rack and laying it on the bed.
7. Move all furniture 2-3 feet from the walls.
8. Move your refrigerator about a foot away from wall. Be extremely careful so you don't damage the floor, any floor damage will be the tenant responsibility.
9. Remove all animals, birds, and fish. If your fish tank is too heavy to move outside, then place wet towels over the top of the tank and disconnect the air pump for 4-6 hours, also wrap the air pump in plastic. (You are cautioned to check with your fish dealer on any breeds which might suffer from a 6 hour lack of aeration; such breeds must be removed from the premises. Note: **DO NOT** disconnect the **HEAT PUMPS!!** Only air pumps!
10. Please leave **ALL** doors Unlock to ensure not one is sleep or any animal is inside any room.
11. Windows may be left open (unless otherwise advised).
12. We will lock all doors when leaving, so make sure you have your keys.
13. Leave your home for 4 hours. If odor is offensive, ventilate thoroughly and leave for an additional 2 hours.

**AFTER TREATMENT**

When you come home, be sure that the chemical is **COMPLETELY DRY** before returning your items to the cabinets and closets. **DO NOT WASH THE CABINETS**, as this will destroy the effectiveness of the chemical. **DO NOT** be alarmed if you see insects after spraying. These will decrease as the chemical takes effect. Condition should be "all clear" in 14-21 days.

**IMPORTANT: The E.P.A. will not allow us to treat your home unless these instructions are followed completely. If you are not able to keep this appointment please notify this office at least 48 hours in advance, otherwise there will be a \$55.00 service charge.**

Thank you,

**ANMAR PROPERTIES LLC.**
